

San José, December 17th, 2021

To whom it may concern:

This reference letter is provided at the request of Erick Badilla, who participated in our 2021 Gorilla Logic Internship Program under my sponsorship. He worked as part of Gorilla Logic for 5 months.

During that time, Erick has been a self starter and a productive contributor to team efforts. In addition to having a high degree of integrity and a cheerful personality, he is one of those rare individuals who can both follow instructions and take initiative as appropriate.

He is an independent and responsible colleague who takes ownership of his work and demonstrates meticulousness, intelligence and great interpersonal skills. He is also a fast and keen learner, always ready to take on new challenges. He is strong in time management and his competence extends beyond the skills for which he was originally hired.

The fact that he always enjoyed what he did made his work of high quality, as he paid attention to all the details in every aspect of the job. Erick was always passionate when learning new skills, he would talk with his peers and acquire insights when given the chance. He asked interesting and in-depth questions about the project just to learn as much as possible. He approached every task with great enthusiasm and effort.

As you can tell by now, I am quite impressed with this extraordinary professional Erick is, and I am sure that this five-month internship has been an excellent work experience for him. He has gained great knowledge of the software development industry. I highly recommend him for roles in the technology business and academy, that requires technical capabilities, intelligence and a positive attitude.

If you need additional information or perspective, please do not hesitate to contact me via email.

Best regards,

Mariana Santamaría  
Director of Technology  
Gorilla Logic
